ITWPROLINE HARDWARE SOLUTIONS

Fixings, Hardware and Paint

Features & benefits

- ✓ Can be used with any stud material type - stainless steel and galvanised coatings for moderate corrosive environments
- ✓ Fast curing, and can be used in overhead applications without special holding accessories
- ✓ Suits threaded studs and internally threaded sockets
- ✓ Polyester mortar material

Applications:

- ✓ Structural fixings
- ✓ Fixing into moderate corrosive environments
- ✓ Anchors under cyclic loadings
- ✓ Adhering remedial anchors
- ✓ Fixing into hollow material with use of accessories

Buildex®

Buildex is a world class screw which encompasses everything the builder needs. It comes in all sizes and finishes, and is suitable for almost any application.

That's what makes Buildex the most flexible screw ever. And all screws are covered by a Buildex warranty.

Product range:

- ✓ Climaseal 3, ZACS 4 & Shank Guard: Protective coatings to prevent corrosion
- ✓ Corri-lok: Protection against high winds & cyclones
- ✓ ColorMatch: A range of colours to suit your colour roofing or cladding
- ✓ HiGrip: A fastener especially designed to prevent water entry
- ✓ Metal Batten Tek: Purpose built for fixing roof profiles/cladding to lightweight metal battens
- ✓ Self drilling screws with a range of threads and heads

All Lane window locks and door bolts are made from high quality zinc dichromate coated in UV resistant powder coat in 5 popular colours.

All locks come with tamper resistant screws for added security and all locks can be keyed alike to a common key.

For peace of mind, we use Hi-tensile steel bolts in our window and door bolts.

All products are covered by the Lane 5 year paint and tarnish warranty and 10 year mechanical warranty.

Products include:

- ✓ Sliding Aluminium Window Locks
- ✓ Window Bolts
- ✓ Keyed Push Window Locks
- ✓ Patio Door Bolts
- ✓ Sash Window Locks
- ✓ Awning Window Press Locks
- ✓ Slimline Patio Door Bolts

Intergrain UltraDeck & NaturalStain

Intergrain

Intergrain UltraDeck

UltraDeck is a high performance, water based oil for decking, outdoor furniture and exterior timber. UltraDeck delivers a long lasting finish that enhances the characteristics of the timber grain and weathers naturally, without risk of cracking, blistering and peeling. Select from Natural, or tinted UltraDeck available in Jarrah, Merbau, Light Oak, Dark Oak, Teak, Mahogany, Walnut & Ebony. These colours enrich the natural timber tones.

Intergrain NaturalStain

NaturalStain is a long lasting, semi-transparent, water based stain with outstanding durability for decking and exterior timber. NaturalStain is available in a range of colours, with a matt to low sheen finish, and weathers naturally without risk of cracking, blistering and peeling. NaturalStain is ideal for enhancing the natural timber colour or changing the colour of weathered or light timber such as treated pine. Select from Cedar/Cypress, Charcoal, Driftwood, Jarrah, Merbau, Redwood, Light Oak, Dark Oak, Teak, Mahogany, Walnut and Ebony

UltraDeck Natural on Merbau

UltraDeck Merbau on Merbau

NaturalStain Merbau on Merbau

When should I use UltraDeck and when should I use NaturalStain?

UltraDeck is the highest performance decking oil, lasting at least twice as long as a traditional decking oil. UltraDeck gives a low sheen, natural finish to decking and other exterior timber. The tinted UltraDeck colours, like Merbau, impart an increased depth of colour to the natural colour of the timber. UltraDeck is recommended for use where traditional decking oil is used.

NaturalStain is ideal for enhancing the natural timber colour or changing the colour of weathered timber, and lighter timbers such as treated pine. Compared to UltraDeck, the colour will be stronger. NaturalStain will last longer than UltraDeck, and will last at least three times longer than a traditional decking oil. Use on all exterior timber including decking, screens, cladding, garage doors, window frames and outdoor furniture.

Therefore, it comes down to the look you prefer and the life span you would like to achieve out of your timber finish.

SIKKENS

Fixings, Hardware and Paint

It's the Teflon that makes walls silky smooth and easy to clean.

Look for the paint with Teflon®

There's only one interior paint which contains the unique Teflon® formula. And only one that makes your walls silky smooth and easy to clean. So if you're planning on decorating your home, don't compromise. Look for the paint with Teflon®. Look for Taubmans Living Proof Silk.

“ All your building products are available at Finlayson's. ”
