Urban - Primed

Slimline 6000 - Heavy Duty Cavity Slider

Platinum Cavity

## BLONDE AS A BLANK CANVAS

*When you start with a dark timber, you narrow your choice of finishes. From its raw state, it will only become darker. Blonde Oak, however, opens a world of opportunities, simply sealing it will capture its natural beauty and highlight the intricate grain and knots. But when you begin exploring stains and other finishes you'll find a range of options from honeyed hues all the way through to the heaviest of ebonies, and every shade between. The Blonde Oak Collection is provided raw.*

## Classic select grade veneer/primed

Classic designs are timeless, as much at home surrounded by traditional architecture as they are in a modern setting. Detailed moulding to the exterior face and deep carved patterns on both sides of the door are complemented by Corinthian's square corner rout.

Doors with glass are made of solid construction while non-glass doors feature CoriTech core. External Primed Skin ready for painting or in select grade veneer\* for staining.

## SIMPLICITY OF DESIGN

*Create a look that's all your own, made possible by the individuality of American White Oak.*

*Colour inspiration. Embrace timeless simplicity for an interior that transcends momentary trends.*

*The natural grain of timber is like a unique fingerprint, making each Moda White Oak interior door a one-off design. And with a light and versatile American White Oak veneer, these doors can be stained and painted to express your interior vision with clarity and style. As a perfect complement to our Blonde Oak entrance door collection, this range will lend a strong sense of cohesion to your home. Available as a solid, glazed or mirror door.*

## deco primed

Your new house craves cutting edge design, or maybe your current home dreams for a new lease on life. The Deco collection, influenced by the international Art Deco design movement, uses clean lines and geometry to open up a world of modern design for your home. With 15 Deco doors to choose from, Corinthian offers you the largest range of routed doors with the latest designs.

*Subtle but contemporary, Urban entrance doors are designed for the modern home where slick, city style is important and the choice of entrance doors is made to complement the prevailing architectural mood.*

*These smart designs are routed on both sides and finished in Corinthian's signature square corner rout. With plenty of door designs for you to choose from, this low maintenance range is perfectly suited to urban living, from apartments and villas to townhouses and modern suburban homes.*

*The doors feature CoriTech core construction and are available in External Primed Skin ready for painting.*

## Slimline 6000

### Heavy Duty Cavity Slider

The Slimline 6000 Heavy Duty Cavity Slider opens up a new realm of designer possibilities. The unique heavy duty track and roller system accommodates doors weighing up to 125kg, with unsurpassed stability and effortless operation. Whether you are looking to integrate a wide, solid timber custom door, or any other door from our range, you can achieve a look that would not be possible with conventional sliding door systems.

- For use in timber framed construction, to suit a stud wall thickness of 90mm.
- Will accommodate doors up to 1200mm wide and 2340mm high, weighing up to 125kg. Larger widths available on request.
- May be installed as a double cavity unit with a door weight limit of 85kg for each door.

## platinum cavity

Jump proof twin roller track, full steel construction eliminates issues with white ants or moisture.

Tox joined cavity frame, provides additional strength over spot welding.

Available to suit a stud wall thickness of 70, 75 and 90mm.

Eight precision roller bearings for smooth running.

- Single door application up to 65kg per door
- Double door application up to 45kg per door
